Group - C

Read **Passage I** and **Passage II** and attempt following questions.

Passage - I

King Francis was a great lover of all kinds of sports. One day he and his courtiers, noblemen and ladies, sat watching wild savage lions fighting each other in the enclosure below. Amongst the courtiers sat Count de Lorge beside a beautiful and lively lady of noble birth whom he loved and hoped to marry. The lions roared, and bit and tore each other with savage fury, until the king said to his courtiers, "Gentlemen, we are better up here than down there!" The lady, hearing him, thought she would show the king and his court how devoted her lover was to her : so she dropped her glove down among the fighting lions, and then looked at Count de Lorge and smiled at him. He bowed to her, and leaped down among the savage lions without hesitation, recovered the glove, and climbed back to his place in a few moments. Then he threw the glove right in the lady's face. King Francis cried out, "Well and bravely done! But it was not love that made your lady set you such a dangerous thing to do, but her vanity!"

(5)

(D) It was vanity that made the lady set her lover such a dangerous thing to do.

Passage - II

The great defect of our civilization is that it does not know what to do with its knowledge. Science has given us powers fit for the gods, yet we use them like small children. For example, we do not know how to manage our machines. Machines were made to be man's servants; yet he has grown so dependent on them that they are in a fair way to become his masters. Already most men spend most of their lives looking after and waiting upon machines. And the machines are very stern masters. They must be fed with coal, and given petrol to drink, and oil to wash with, and they must be kept at the right temperature. And if they do not get their meals when they expect them, they grow sulky and

Please Turn Over

refuse to work, or burst with rage, and blow up, and spread ruin and destruction all round them. So we have to wait upon them very attentively and do all that we can to keep them in a good temper.

4×5

26. Which of the following statements is true?
- (A) The great defect of our civilization is superstition.
 - (B) The great defect of our civilization is that it confirms nothing.
